Mr. R. H. Mills,
Thomaston, Ga.

Dear Mr. Mills;

I am tracing up all branches of the Collier family that sprang from the Virginia Colliers during the Revolutionary War times. I have a complete history from the 15th Century on down to the present time of my own antecedents. I understand that your Mother was a Collier and perhaps was the daughter of Charles Vines Collier. Will you kindly ask her to furnish me the following information on the enclosed sheet that I am sending, filling it out to the best of her recollection all the way back?

Thanking you in advance for your kind attention to the matter, I beg to remain

Yours very respectfully,

JCC:C

I think if you can give me a history of your Great Grandfather it will then connect very closely with Vines Collier that removed from Virginia to Oglethorpe County just after the Revolutionary War. Vines Collier was my Great Great Grandfather and was the father of Robert Collier that lived at Upson County the old station on the M & B and died there in 1857 or 58 and the Grandfather of Robert Marshall Collier who lived at The Rock and died in 1896.

I would appreciate your kind attention to this matter promptly, thinking it out carefully and when I have gotten up a complete history from the 15th Century down to the present time I will cheerfully furnish you a copy.

Very respectfully,
